Need very quick way to make quantity changes to lenses on this list, without having to use edit button and leaving page, which is too time consuming. Consider using open boxes and an “update list” button to execute all changes at once.

Cart

-The character limits for “Tray/Patient” is 1-10. You mentioned limiting these characters in the cart, as well as in the UPC and Dropdown ordering areas as well. This will prevent any code being passed on that is too long.

Cart

Note : Quantity listed is PER LENS (1 = one lens, not pair)

	Entered	Item Number	Product	Tray/Patient	Price	Quantity	Total
	18/11/2019	620000869	CR-39 N/C 70mm -1.75 -1.75	<input type="text"/>	\$20.00	1  	\$20.00
							

Change all Quantities across the website to max out at 99 per sku.

New Cart Look

- Shipping Selection area added in cart
- Customer MUST chose a selection. Error message “You must choose a shipping method” will appear if they try to proceed to checkout without.
- This selection will create another line of code in FTP file, see next section for details.
